Notice of Water Rate Change

The Blue Ridge Rural Water Company (BRRWC) is committed to provide the safest potable drinking water to all of its customers at the lowest possible cost. As part of this commitment BRRWC has whole sale water contracts with two of the upstate's larger water treatment companies. In April 2011 BRRWC received notification that the cost of water from the Greenville Water System would be increasing by 12.3% on the per 1,000 gallons charge. Because of this increase the BRRWC must adjust the rate that you the customer pay for water. BRRWC will need to pass on to its customers only a 2.9% increase on the per 1,000 gallons charge. This increase will not affect the customer that uses less than the monthly minimum. For customers with the average usage of 6,000 gallons, this rate change will only increase your bill by \$0.48 per month.

NEW BRRWC WATER RATES:
