Notice of Water Rate Change

The Blue Ridge Rural Water Company (BRRWC) is committed to provide the safest and most reliable drinking water to all of its customers at the lowest possible cost. As many of you are aware BRRWC plans on paying off the current water treatment plant loan on the Cliffs at Glassy Water System in April 2020. This original loan from 2010, was refinanced in 2012, for a 10-year term and BRRWC is now able to pay the note off during the month of April 2020, some 2 years and 5 months early. The early repayment will result in the removal of the Loan Repayment Fee of \$22.80 per month.

As most of you are aware that much of the Cliffs at Glassy Water System is made up of plastic pipes. This material continues to deteriorate, because of its placement in rocky conditions and where system pressures are higher than normal. This deterioration will continue to result in water line breaks throughout the system. BRRWC recently adopted a system wide comprehensive pipe replacement plan that will begin in 2020. This replacement plan will be funded by an increase in the System Improvement Fee from \$7.20 to \$20.00 per month.

As a result of the removal of the loan repayment fee and increase in the improvement fee, customers will see a \$10.00 reduction on the monthly minimum water bill.

The new Cliffs at Glassy Water System rates, effective April 2020, is herein attached to the back of this notice.

If you have any questions, please contact Blue Ridge Rural Water Company at (864) 895-1719.
